# TERMS & CONDITIONS OF USE

1. The Isle of Man Airport is operated by the Department of Infrastructure hereinafter referred to as “the Department”.
2. The use of the Isle of Man Airport is subject to:
  - A. Local flying restrictions and procedures as published from time to time in U.K. Air Pilot and NOTAMS;
  - B. Any orders, instructions or directions given by or on behalf of the Department whether in writing or otherwise;
  - C. The Airport Byelaws;
  - D. Any orders, instructions or directions given by or on behalf of any other Government Department.
3. The person for the time being having the management of a particular aircraft is hereinafter referred to as the ‘Operator’.
4. The Operator shall pay the appropriate charges for the landing, parking, or housing of aircraft. The Operator shall also pay for any supplies, services or facilities provided to him or the aircraft by or on behalf of the Department. The charges shall, unless otherwise agreed before charges are incurred, be those charges determined by the Department.
5. The charges referred to in paragraph 4 shall accrue from day to day and shall be payable to the Department before the aircraft departs from the Airport unless some other arrangement has been agreed in writing or otherwise by the Department. Operators who have not previously entered into credit arrangements with the Department and who wish to be offered credit facilities must make an application in writing to the Department in advance of operations.
6. So long as the aircraft, its parts and accessories shall be upon the Airport or upon any land under the control of the Department, the Department shall have a continued lien, both particular and general upon the aircraft, its parts and accessories for all charges of whatsoever nature and when so ever incurred, which shall be or become due and payable to the Department in respect of that aircraft, or in respect of any other aircraft of which the Operator of that aircraft is the Operator at that time when the lien is exercised. The said lien shall not be lost by reason of the aircraft departing from land in the control of the Department but shall continue to be exercisable at any time when the aircraft has returned to and is upon any such land so long as any of the said charges, whether incurred before or after such departure, remain unpaid.
7. If payment of such charges is not made to the Department within twenty eight days after a recorded delivery letter demanding payment thereof has been sent by post addressed to the Registered Owners of the aircraft at any place at which he carries on business, the Department shall be at liberty and in such manner as it shall think fit, to see, remove, destroy or otherwise dispose of the aircraft and any of its parts and accessories in order to satisfy any such lien. The powers contained in paragraph 6 and 7 are exercisable by the Department without prejudice to any other power granted by statute or otherwise.
8. When an aircraft is detained under Section 88 of the Civil Aviation Act 1982, as it has effect in the Isle of Man, the Department may, subject to the provisions of that Section and any charges remaining unpaid after fifty six days from the date when detention began, sell the aircraft in order to discharge such outstanding amounts.
9. Neither the Department nor any servant or agent of the Department shall be liable for loss, of, or damage to the aircraft, its parts or accessories or any property contained in the aircraft howsoever such loss or damage may arise, occurring while the aircraft is on the Airport under the control of the Department or, is in the course of landing or taking-off at the Airport or of being removed or dealt with elsewhere for the purposes of paragraph 7 and 8 or these conditions, arising or resulting directly or indirectly from any

act omission, neglect or default on the part of the Department, its servants or agents unless done with intent to cause damage or recklessly and with knowledge that damage would probably result.

10. The Operator will indemnify the Department, its servants or agents against any claim which may be made against the Department its servant or agents for loss or damage to property either real or personal incurred by any person using or being in an aircraft, however, such loss, or damage may be caused including (without prejudice to the generality of the foregoing) any claim arising from the act, omission, neglect or default of the Department, its servants or agents unless done with intent to cause damage or recklessly and with knowledge that damage would probably result. Section 5 of the misrepresentation and Unfair Contract Terms Act 1980 (which contains provisions equivalent to Section 2 of the Unfair Contract Terms Act 1977 of Parliaments) affects terms or notices which unreasonably exclude or restrict liability for negligence. The Department draws the attention of potential users of the Airport to the paragraphs above which excludes the Department's liability in certain circumstances. The Department considers this paragraph to be reasonable.
11. The Operator will indemnify the Department, its servants or agents against any claims which may be made against the Department its servants or agents for injury (including fatal injury) incurred by any person using or being in an aircraft however such injury may be caused excluding (without prejudice to the generality of the foregoing) any claim arising from the negligence of the Department, its servants or agents.
12. The Operator or his appointed handling agent shall furnish to the Department in such a manner as the Department may from time to time determine, information relating to the movements of aircraft or aircraft handled by the Agent at the Airport within twenty four hours of each of these movements, including details about the number of terminal and transit passengers and the volume of cargo and mail embarked and disembarked at the Airport. The Operator or his appointed handling agent shall also furnish or request in such form as the Department may from time to time determine, details of the maximum total weight authorised (MTWA) or maximum take-off weight (MTOW) in respect of each aircraft owned or operated by him.
13. No reduction or exemption from charges will be allowed by reason of the availability of any airport services, assistance or other facilities or when aircraft are diverted or obliged to land exceptionally; for any reason.
14. The Department may at its own discretion waive any charges if it so wishes. However it does not give any guarantee that it would be prepared to waive any charges for any particular circumstances.
15. The Department may charge interest on any charges payable pursuant to the terms hereof which have not been paid within the period stipulated for payment. Interest will be calculated on a daily basis from the date of the charge being incurred at the base rate of the Isle of Man Bank Limited for the time being previously plus 4%.
16. The Department requires a minimum of £50 Million of insurance cover for all aircraft using the Airport. In the event of the Airport Operators Association (AOA) of which this aerodrome is a member increasing the recommended minimum level of insurance above the said figure, the figure for this Aerodrome will increase likewise with immediate effect.
17. The Aerodrome is certificated for public use by the Minister for the Department for Enterprise, subject to conditions contained within that license and pursuant to Article 130 of the Air Navigation (Isle of Man) Order 2015. Facilities are provided, inter alia, in accordance with the United Kingdom Civil Aviation Authority publication CAP 168 (Licensing of Aerodromes). Rescue and Fire Fighting Services (RFFS) are provided to Category 6, as set out in the above document, or otherwise by arrangement.
18. Any other Airport owned or operated

- by the Department, whether certified by the Department or otherwise designated under "the Order", shall be subject to these Conditions of Use.
19. The Department accepts no responsibility in the event of the unavailability of any service or facility or in the event of the Airport being closed for whatever reason.
  20. The supply of non-aviation related items or services shall be subject to the appropriate paragraphs of these conditions. Any debt incurred by an Operator for the supply of non-aviation related item or services will be a charge against the assets of the Operator until such time as payment has been received. The supply of non-aviation related items to anyone other than an Operator shall be treated as a normal civil debt.
  21. The Department reserves the right upon giving written notice to amend, vary or rescind of the above conditions of use.
  22. Disabled Aircraft Recovery - A "Disabled Aircraft" is defined as an aircraft located within the boundary of the licensed aerodrome that is unable to move under its own power. Isle of Man (IOM) Airport may require the removal of any disabled aircraft from any part of the licensed aerodrome where that aircraft is, in any way impeding the safe and efficient operation of the Airport. Movement of any aircraft involved in a Reportable Accident is to be subject to the concurrence of UK Air Accident Investigation Branch (AAIB) (civil aircraft Phone Number 01252 510300) or Inspector of Flight Safety (RAF aircraft). However IOM Airport may on safety grounds remove an aircraft without concurrence. Unless authority has been delegated, the aircraft operator/handling agent shall be responsible for taking steps to remove any aircraft upon receiving notice from IOM Airport. Determination on the need to remove a disabled aircraft and initiation of action to remove it is the responsibility of the Deputy Airport Director, or in his absence the Airfield Operations Director/Airport Director.
  23. The Deputy Airport Director, Airport Director or Airfield Operations Director must determine the effect on runway operations caused by the continued presence of the disabled aircraft.
  24. When IOM Airport is empowered to undertake removal, both on-airport and other resources are to be used to effect the safe and timely removal. In the case of off-airport resources, dependent on the prevailing circumstances specialised companies or contractors may be utilised.
  25. If heavy lifting gear and/or specialised equipment is required, it should be noted that the responsibility for payment of specialist equipment/advice remains with the aircraft operator / handling agent. If it is necessary to remove a disabled aircraft without concurrence the Deputy Airport Director or Airport Director / Airfield Operations Director shall ensure that a report is completed specifying reasons requiring removal including:
    - a summary of action taken
    - diagram of the location of wreckage
    - exact location of accident site
    - photographs of aircraft/wreckage prior to removal
    - safety implications necessitating removal
  26. If such early removal is required all reasonable measures shall be taken to preserve as far as possible marks made on the ground by the aircraft. Additionally, the position of the aircraft shall be marked on the manoeuvring area surface. The Airport will not be liable for any additional damage caused by the removal process.
  27. Airport Charges – Airlines may make an application to the Airport Director or their Deputy to apply for discounted rates to published charges, under a number of different rebated schemes which may be in force from time to time. The determination of acceptance of discounted charges remains entirely with the Airport Director. If an application is

turned down, then full published airport charges will be charged. The Airport also reserves the right to withdraw any negotiated discounts with 30 days written notice.

### **Credit Terms**

- (a) The Operator shall pay the appropriate charges for the landing, parking or housing of aircraft. The Operator shall also pay for any supplies, services, or facilities provided to him or the aircraft by or on behalf of the Department. The charges shall, unless otherwise agreed before charges are incurred, be these charges determined by the Department.
- (b) The charges referred to in paragraph (a) shall accrue from day to day and shall be payable to the Department before the aircraft departs from the Airport unless some other arrangement has been agreed in writing or otherwise by the Department. Operators who have not previously entered into credit arrangements with the Department and who wish to be offered credit facilities must make an application in writing to the Department in advance of operations.
- (c) So long as the aircraft, its parts and accessories shall be upon the Airport or upon any land under the control of the Department, the Department shall have a continued lien, both particular and general upon the aircraft, its parts and accessories for all charges of whatsoever nature and when so ever incurred, which shall be or become due and payable to the Department in respect of that aircraft, or in respect of any other aircraft of which the Operator of that aircraft is the Operator at that time when the lien is exercised. The said lien shall not be lost by reason of the aircraft departing from land in the control of the Department but shall continue to be exercisable at any time when the aircraft has returned to and is upon any such land so long as any of the said charges, whether incurred before or after such departure, remain unpaid.

(d) If payment of such charges is not made to the Department within fourteen days after a recorded delivery letter demanding payment thereof has been sent by post addressed to the Registered Owner of the aircraft at any place at which he carries on business, the Department shall be at liberty and in such manner as it shall think fit, to see, remove, destroy or otherwise dispose of the aircraft and any of its parts and accessories in order to satisfy any such lien. The powers contained in paragraph (c) and (d) are exercisable by the Department without prejudice to any other power granted by statute or otherwise.

(e) The Department may charge interest on any charges payable pursuant to the terms hereof which have not been paid within the period stipulated for payment. Interest will be calculated on a daily basis from the date of charge being incurred at the base rate of the Isle of Man Bank Limited for the time being previously plus 4%.
